📁 Portfolio

PROFILE

University Programmer in Systems and junior COBOL developer focused on IBM Z/Mainframe environments. I developed, integrated, and documented an inventory management system with a hybrid architecture deployed on a real IBM LinuxONE infrastructure (s390x), combining COBOL batch processing, Db2, JCL, and Python Flask. The project was graded 9/10 as my final degree project.

I have certified training in IBM Z, COBOL, JCL, Db2, z/OS, CICS, Zowe, and enterprise application modernization. IBM Z Xplore All Star. Professional interest in mainframe development, z/OS support, batch/online processing, legacy system documentation, and COBOL/CICS modernization.

Available for full-time remote roles in mainframe development, support, and modernization.

SKILLS

- **Mainframe / IBM Z:** COBOL batch, JCL, IBM Db2, embedded SQL, VSAM, z/OS, TSO/ISPF, z/OS UNIX, fundamentals of CICS, RACF, IBM MQ, IMS, Assembler, and PL/I.
- **Mainframe Modernization:** CICS, Zowe CLI/Desktop/Explorer, z/OSMF, IBM Z Open Automation Utilities, Docker on s390x, automation concepts with Ansible.
- **Backend:** Python, Flask, ibm_db, REST APIs, SQL, Git/GitHub, HTML/CSS/JavaScript.
- **AI Applied to Development:** use of Claude and ChatGPT for technical documentation, legacy code analysis, assisted refactoring, and controlled generation of tests or examples.
- **Other Languages and Foundations:** Java OOP, C, PHP, Agile methodologies, Scrum.

EXPERIENCE

NATIONAL UNIVERSITY OF VILLA MERCEDES (UNVIME) SUPERVISED PROFESSIONAL PRACTICE (PPS)

📍 San Luis, Argentina

📅 Feb 2025 – Dec 2025

Project: Inventory Management System with Mainframe Architecture
github.com/Flor125/kiosco-management-system-mainframe

Client: Repository:

Role(s): Lead Developer — COBOL/Mainframe + Python Flask **Technologies:** COBOL, IBM Db2, JCL, LinuxONE s390x, Python Flask, Docker, HTML/CSS/JS

Responsibilities:

- Wrote JCL procedures for batch job execution and scheduling; implemented FEFO (First Expired, First Out) logic using flat-file architecture on s390x, applying common enterprise batch processing patterns.
- Designed a normalized Db2 schema with 8 relational tables, ACID transactions, and referential integrity to support critical operational consistency.
- Integrated the COBOL batch layer with a REST API built in Python Flask; implemented RBAC (MANAGER/EMPLOYEE roles), pbkdf2:sha256 password hashing, CSRF protection, and full audit logging.
- Implemented audit logs that helped identify suspicious automated activity, SQL injection attempts, brute-force attempts, and session hijacking attempts during production operation.
- Completed full system architecture documentation in a 56-page technical report, including UML diagrams, use cases, and process documentation. Graded 9/10.

FOTOCOPIAS FLOPI

📍 San Luis, Argentina

OWNER AND OPERATIONS MANAGER

📅 Oct 2024 – Present

- Managed daily operations of a small printing and digital services business: customer service, order organization, supply control, informal service billing, and technical troubleshooting for printing/design tasks.

CERTIFICATIONS

- 

IBM Mainframe Developer Professional Certificate

IBM / Coursera. 7-module professional specialization covering COBOL, JCL, Db2, z/OS, CICS, VSAM, and mainframe security.

 2024 – 2025
- 

IBM z/OS Mainframe Practitioner Professional Certificate

IBM / Coursera. Covers z/OS operations, JCL, ISPF, RACF, and enterprise mainframe administration.

 2024 – 2025
- 

IBM Z Xplore All Star

Concepts + Advanced + All Star + Code-a-Thon badges. 30+ technical badges: COBOL, JCL, Db2, CICS, RACF, MQ, IMS, zOSMF, Assembler, PL/I, and Linux on Z.

 Oct 2024
- 

Fundamentals for Zowe

Interskill Learning. Zowe CLI, Desktop, and Explorer for modern mainframe development workflows.

 2025
- 

Modernize Applications with IBM CICS

IBM / Credly. Intermediate badge focused on CICS application modernization, APIs, CICS capabilities, transactional processing, and enterprise applications in hybrid environments.

 May 2026

EDUCATION

UNIVERSITY PROGRAMMER IN SYSTEMS

National University of Villa Mercedes (UNViMe)

 Degree obtained: March 2026

Provisional academic transcript available. General passing average: 7.98/10. Supervised Professional Practice graded 9/10. Final project deployed on real IBM LinuxONE infrastructure. Final diploma in process.

LANGUAGES

- 

English: B2 Upper Intermediate

EF SET English Certificate. Technical reading, writing, and communication in English.
